

ACOUSTIC WALL MOUNT

Series: 4800/TDM

- Eradicates and attenuates noise and vibration above 20Hz.
- Double fixing point provides additional security to structure.
- Helical structure provides excellent soundproofing.
- Bracket ensures structure remains intact in case of fire.
- Optimal load: 3kg to 75kg per mount.
- Suited for supporting false partition walls or acoustic wall linings.

MATERIAL

- Polymer Body: Kraiburg TPE
- Metal structure: Galvanised steel Dx54d + Z140 with EPDM rubber backing
- Oval shaped leveller: Galvanised steel Dx54d + Z140 with CAU EPDM 130 backing.

| Part Number | Weight Range per mount (Kg) | TPE Properties |
|-------------|-----------------------------|---------------------|
| 4800/15-TDM | 3 ~ 15 | PDF |
| 4800/30-TDM | 15 ~ 30 | PDF |
| 4800/50-TDM | 30 ~ 50 | PDF |
| 4800/75-TDM | 50 ~ 75 | PDF |

Resonance Frequency: 7-15Hz
