

PARTITION WALL MOUNT

Series: 7600-LD2

- Connects two separate structures together.
- Control system allows compression in both directions.
- No need to use screws.
- Steel brackets increases tensional tensile strength.
- Good soundproofing properties.
- Optimal load: 5kg to 32kg per mount.
- Suited for partition walls.

MATERIAL

- Polymer Body: Kraiburg TPE
- Metal bracket: Galvanised Steel DX515D + Z275 MA.
- Screw: Zinc plated Cr+3 8x95 steel.
- Nut: DIN-934 A2 (M8) zinc steel
- [TPE PROPERTIES](#)

SE-7600-LD2

- Weight range – 3-25kg
- Resonance Frequency: 7-15Hz.
