

ACOUSTIC HANGER

Series: FTD NIVEL 47

- Dual use component can be used for both walls and ceilings.
- Ideal for space restrictive builds due to thin design.
- Rubber backing conforms to uneven surfaces.
- Circular mounts ensure structure remains intact in case of fire.
- Improves acoustic performance by >10%.
- Optimal load: 3kg to 25kg per mount.
- Suited for mounting laminated 45 or 47mm plasterboard and acoustic ceilings.

MATERIAL

- Polymer Body: Kraiburg TPE
- Metal structure: Galvanised steel Dx54d + Z140 with EPDM rubber backing
- Bowl shaped leveller: Galvanised steel Dx54d + Z140
