

HEAVY MACHINE A.V MOUNTS

Series: SE-BM-80/IX

- Protects from vibrations and impact from frequencies >1000rpm.
- Movement stabilisers prevent movement of the core, avoiding sudden displacements when the machine starts or stops.
- Optimal load: 20kg to 200kg per mount.
- Six different mounting configurations available.
- All parts supplied with metal fixings.
- Typically used for supporting plant equipment, inertia bases, mechanical and electrical equipment as well as sensitive machinery.
