

GHz EMI SHIELDING SHEET

Kitagawa series: GSS-HT Series

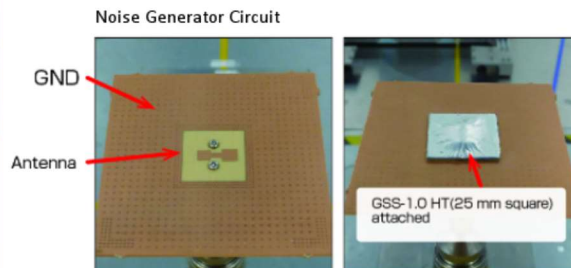

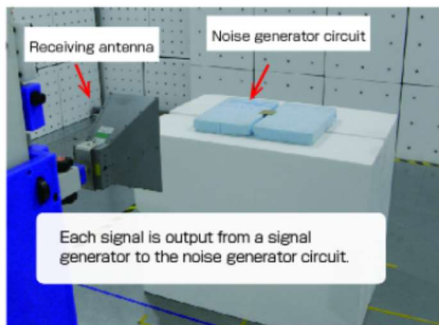

- Suited for GHz band noise.
- Temperature Range: -40°C to 105°C.
- Interference between ICs can be suppressed by applying material to each IC.

Item	Unit	Standard	GSS-1.0-HT
A	mm	-	1.0
Colour	-	-	Dark green
Specific Gravity	-	JIS K 8807 Compliant	2.24
Dielectric Constant	1MHz	Company standard	35
Flame Resistance	-	UL94	Equivalent to V-0
Adhesion	N/20mm	-	12.7
Operating Temperature	°C	-	-40~105

Test conditions

Suppression of other frequencies depends on sheet size and environmental factors.
