

ON-BOARD CLIP / OGCP-1182435 · OGCP-650813R(G)

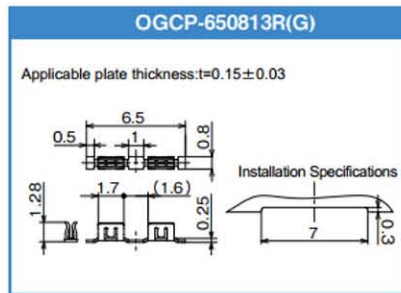

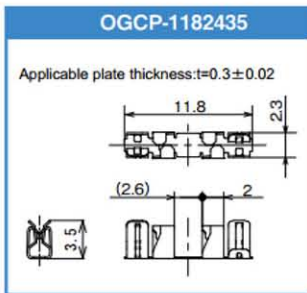

No soldering of shield can is required. Automated mounting applicable fixing parts.

Feature

- Clip structure enables shielding cans to be removable.
- Multi-point contact grounding is provided for shielding cans.
- Separate structure of clip and support portion resistant to side slide loading. (OGCP-1182435)

Material

- OGCP-1182435 Phosphor bronze for spring (Sn reflow plating/Primary plating Cu)
- OGCP-650813R Phosphor bronze for spring (Sn reflow plating/Primary plating Cu)
- OGCP-650813G Titanium Copper alloy (One side Au plating/The under plating by Ni)

Unit: mm

- ※ Shielding can fixing is not guaranteed if the clip only is used.
- ※ Verification of actual use conditions is required prior to use, since resistance against drop impact varies according to the weight of the shielding can.
- ※ Please confirm "Annotation" on the last page prior to purchase.
