

SORBOTHANE ANTI-VIBRATION LEVELING MOUNTS

- Provide both levelling and vibration insulation.
- Designed to handle a wide range of loads and varying environmental conditions.
- Can isolate a system from unwanted resonance by lowering the natural frequency of the system.
- The dual urethane compounds compliment each other to provide a high degree of vibration and shock dampening.
- Quick and cost-effective way to dissipate unwanted energy.

Part Number	Thread	A	B	C	Duro (Shore 00)	Rated Load (kg)	Engineering Drawing
