

SORBOTHANE SOFT BLOW MALLET

- Provides maximum surface contact without denting or marring.
- Works on moulded surfaces, forms to edges and corners.
- Off centre hits will not harm surface.
- Use any side of mallet head.
- Low Rebound – Saves energy.
- Typical applications include fine wood working, auto body, trim & glass, carpentry & cabinetry, remodelling, windows and glass.

Part Number	Head Weight (oz)	A	B	C	D
